CLARK FOR MOREAU FROM WEBER BY SCHEUFELE

Re DEPTTEL 7761 dated 19 May 1951.

Film decision needed here for immediate commitment else source will not (rpt not) materialize. Preliminary selection impossible; therefore difficult to determine nature all future deliveries. Film personally reviewed and considered valuable. Imperative source be given go ahead for continued monthly procurement at cost of 1,500 DM, \$357.12 per month. Realize occasional duplication may result but risk warranted at price. All are 35 mm. nitrate base inflammable sound film, dated about 1949, dealing with Sov Zone, except reel 5. Titles first seven reels follow:

1. Stahl-improvements at Riesa; good interior shots.
2. Lot No. 581353 development and production problems of coal dust locomotives.
3. Kali mining techniques shown.
4. Energy development of power in Sov Zone.
5. Teffpunkt Budapest propaganda film re world youth peace conference.
6. Part one-shipping, Hamburg bis Stralsund depicts Baltic fleet construction at Stralsund, and techniques employed.
7. Part two same as six.

Re records, ownership of documents will undoubtedly be transferred if film is subsequently made available. Other suggested info will be obtained.

Query statement "need your survey before microfilming starts."

Filming cld
